

Cleaning Brushes

It is essential to ensure that your sampler is properly cleaned. Sampling Systems supply a range of brushes that are ideal for cleaning both stainless steel and plastic samplers.

Use the appropriate diameter and length for your sampler.

- Hygienic nylon bristles
- Robust aluminium handle
- Available in a range of lengths and diameters

Part No.	Description	Overall Length	Min. Tube Diameter	Max. Tube Diameter
675 8020N600	Narrow Brush	600mm	7mm	14mm
675 8020N1100	Narrow Brush	1100mm	7mm	14mm
675 8020N1600	Narrow Brush	1600mm	7mm	14mm
675 8020N2100	Narrow Brush	2100mm	7mm	14mm

675 8020A600	Standard	600mm	15mm	30mm
675 8020A1100	Standard	1100mm	15mm	30mm
675 8020A1600	Standard	1600mm	15mm	30mm
675 8020A2100	Standard	2100mm	15mm	30mm

675 8020J600	Wide Brush	600mm	30mm	45mm
675 8020J1100	Wide Brush	1100mm	30mm	45mm
675 8020J1600	Wide Brush	1600mm	30mm	45mm
675 8020J2100	Wide Brush	2100mm	30mm	45mm
